## MEDICAL HISTORY AND CONSENT FOR TREATMENT

I certify that the above information is accurate, complete, and true. I authorize MD Pain and any associates, assistants, and other health care providers it may deem necessary, to treat my condition. I understand that no warranty or guarantee has been made of a specific result or cure. I agree to actively participate in my care to maximize its effectiveness. I give my consent for MD Pain to retrieve and review my medication history. I understand that this will become part of my medical record. I acknowledge that I have had the opportunity to review the Notice of Privacy Practices of MD Pain, which is displayed for public inspection at its facility and on its website. This Notice describes how my protected health information may be used and disclosed, and how I may access my health records. I authorize the MD Pain to release my Protected Health Information (medical records) in accordance with its Notice of Privacy Practices. This includes, but is not limited to, release to my referring physician, primary care physician, and any physician(s) I may be referred to. I also authorize MD Pain to release any information required in obtaining procedure authorization or the processing of any insurance claims. I understand that MD Pain will not release my Protected Health Information to any other party (including family) without my completing a written "Patient Authorization for Use and Disclosure of Protected Health Information" form, available at its facility and on its website. In the event that I am asked to provide a urine, saliva and/or blood sample, **I voluntarily seek laboratory services and hereby consent to provide a urine, saliva and/or blood sample as requested.** I have the right to refuse specific tests but understand this may impact my pain management treatment. This agreement can be revoked by me at any time with written notification and is valid until revoked. I hereby assign to the Laboratory my right to the insurance benefits that may be payable to me for services provided, arising from any policy of insurance, self-insured health plan, Medicare, or Medicaid in my name or in my behalf. I further authorize payment of benefits directly to the Laboratory. I understand that acceptance of insurance assignment does not relieve me from any responsibility concerning payment for laboratory services and that I am financially responsible for all charges whether or not they are covered by my insurance. I also acknowledge that the Laboratory may be an out-of-network provider with my insurer. Payment in full is expected 30 days of being notified of any balance due. Please note that in the event that you fail to make payment when due, this account will be referred to a collection agency for collections. In that event, the contingency fee assessed by the collection agency will be added to the principal and interest due. You will be additionally liable for attorney fees. Both collection agency fees and attorney fees will increase the balance you owe.

## **Cancellation and No-Show Policy**

We understand that situations may arise which makes it necessary to cancel your appointment. Accordingly, **we request that you provide at least 24-hour notice of cancellation** to avoid any fees. This will enable the physicians **to offer that time slot to other patients who need care**. Appointments with our specialists are in high demand, and your early cancellation will give another person access to timely medical care.

**The Cancellation and No-Show fees are the sole responsibility of the guarantor and cannot be billed to the insurance company.**

### Cancellation Fees:

- Any appointment not cancelled 24 hours prior to the appointment time are subject to a \$40.00 cancellation fee.
- Any procedure appointments (in a surgery center) not cancelled 48 hours prior to the scheduled appointment time are subject to a \$100.00 cancellation fee.

### No Show Fees:

Patients who do not show up for their appointment and who do not call the office to cancel/reschedule, will be considered a **No-Show** and are subject to a **No-Show** fee. Patients who **"No Show"** for two or more appointments within a 12-month period may be dismissed from the practice.

- **\$50.00 New Patient *No-Show* fee**
- **\$40.00 Established Patient *No-Show* fee**
- **\$100.00 Surgical Procedure (performed outside of office at surgery center) *No-Show* fee**

Payments can be made directly to our Billing Office (303.422.9438) or to our Main Office (303.750.8100).

## Opioid Therapy Statement

Print Name: \_\_\_\_\_

Date: \_\_\_\_\_

Welcome to MD Pain. This document contains the Opioid and Controlled Medications Agreement/Contract, the Informed Consent for the Treatment of Chronic Pain with Opioid Pain Medications, and the Opioid Therapy Statement. If you plan to ask for an opioid or other controlled substance for the treatment of your pain, then please read all three of these documents carefully and sign or initial where indicated. If you have any questions, please do not hesitate to ask a provider or staff member.

MD Pain is a comprehensive pain clinic which includes medication management and the full range interventional procedures. To ensure patient safety and optimize outcomes we require our patients to receive their care from only one pain practice. Hence, if we are providing medication management, we also require patients to undergo interventional procedures with us as well.

At MD Pain, it is the goal of our physicians and staff to help give you your life back by reducing your pain and improving your daily functioning. We accomplish these goals with customized, safe, comprehensive, and effective treatment plans that reduce risks and maximize benefits.

To protect our patients from the significant risks associated with opioid therapies including addiction, we follow recommendations and applicable guidelines from the Drug Enforcement Agency (DEA), Colorado state regulatory agencies and the Colorado Medical Board regarding the safe and responsible prescribing of these medications. We first try non opioid medications and other treatments before progressing to treating pain with opiates. Furthermore, we only prescribe opioid medications if, after thorough screening, risk stratification from the forms you fill out, and after thorough history and physical, we determine that a patient's pathology warrants their use, they meet specific criteria, and other treatment options, including alternative non-opioid pain medications, have failed to achieve satisfactory results.

The opioid therapy statement and patient agreement serve to document that both you and your clinician agree on a care plan so that controlled substances are used in a way that is safe and effective in treating your pain.

**MD Pain takes a conservative approach to opioid therapy.** Depending on a patient's specific situation, these medications may not be prescribed at all, may be prescribed at a lower dose, or changed to a safer, more appropriate alternative opioid. Research results continue to demonstrate conflicting evidence for the longterm use of opioid medications for chronic non-cancer pain. High doses or ever-escalating doses can result in a greater risk of physical dependence, tolerance addiction, and increased pain (opioid induced hyperalgesia). The lowest effective dosage of opioids used in conjunction with non-opioid medications in concert with pain management procedures, physical therapy, mental health therapy and other conservative treatments have been shown to produce the best long-term, effective results.

We track our treatment outcomes to do our best to ensure that our patients are being helped. We are proud of our results and believe that if you suffer from chronic pain, we can help you. We provide a multidisciplinary approach to pain management that is safe, minimally invasive, and clinically proven to be effective.

### Side Effects of Opioid Medications

I understand that the medication I will be taking may cause side effects to include, but not limited to sleepiness or drowsiness, constipation, inability to urinate, nausea, vomiting, dizziness, an allergic reaction, immune

suppression, hormone deficiencies, sexual problems, lack of coordination, kidney or liver disease, and bone thinning/weakness. Furthermore, the medication may cause my reflexes and reaction time to slow down. Finally, the medication may cause my breathing to become shallow and slower, leading to decreased oxygen supply to my body, which may lead to permanent neurological, mental, cognitive, and physical deficits and possibly death.

I have read, understand, and acknowledge the MD Pain Opiate Therapy Statement.

## **Opioid and Controlled Substances Provider-Patient Agreement Consent for Treatment**

I, \_\_\_\_\_, understand and voluntarily agree that:

Identification of Alternative Treatment Options: I am aware that my physician and his staff have discussed the possible benefits and risks of other treatments that do not include opioid therapy. These treatments include, but are not limited to, non-opioid medications, injections, physical therapy, mental health therapy and surgery, among others.

I understand my condition and I voluntarily request that my physician/ provider and his/her staff treat my condition. I further authorize my provider to administer or write prescriptions of controlled substances/ opioids/ "pain killers" to me for the purpose of treating my chronic pain. I am in agreement with taking these medications and in no way did my provider require me or talk me into taking these medications.

I understand all controlled substances can be addictive and can lead to death.

I understand the side effects of opioids listed in the Opioid Therapy Statement and will ask questions if needed.

I will participate in all other types of treatment that I am asked to participate in within reason.

I will be responsible for my medicines and will keep the medicine safe, secure, locked, and out of the reach of children.

I will not sell my medicine or share it with others. I understand that if I do, my treatment will be stopped, and authorities may be called.

If my medicine is lost or stolen, I understand it will not be replaced until my next appointment and may not be replaced at all.

I will not take anyone else's medicine.

I will not increase my medicine until I speak with my doctor or MD pain clinical staff.

I will bring the pill bottles with any remaining pills of this medicine if requested. I will authorize MD pain staff to count my pills if necessary.

I will take my medication as instructed and not change the way I take it without first talking to the doctor or other member of the treatment team.

If I see another doctor who gives me a controlled substance medicine (for example, a dentist, a doctor from the Emergency Room or another hospital, etc.) I must bring this medicine to MD Pain in the original bottle, even if there are no pills left.

I will keep (and be on time for) all my scheduled appointments with the doctor and other members of the treatment team.

I will not call between appointments, or at night or on the weekends looking for refills and I understand that no early or emergency refills may be made.

I understand that prescriptions will be filled only during scheduled office visits with the treatment team. I will make sure I have an appointment for refills.

I will treat the staff at the office respectfully at all times. I understand that if I am disrespectful to staff or disrupt the care of other patients my treatment will be stopped.

I will tell the doctor all other medicines that I take and let him/her know right away if I have a prescription for a new medicine.

I will not obtain any non-opioid pain medicines or other prescription medicines for treatment of anxiety or pain, from other providers without permission from my MD Pain provider. If taken with opiates, I understand these drugs, such as benzodiazepines (Klonopin/clonazepam, Xanax/alprazolam, and Valium/diazepam) or stimulants (Ritalin, amphetamine), can be addictive, dangerous to my health, or even cause death.

I will not use illegal drugs such as kratom, heroin, cocaine, or amphetamines. I understand that if I do, my treatment may be stopped.

I will come in for drug testing and counting of my pills within 24 hours of being called (random testing). I understand that I must make sure the office has current contact information in order to reach me, and that any missed tests will be considered positive for drugs.

I will keep up to date with any bills from the office and tell the doctor or member of the treatment team immediately if I lose my insurance or can't pay for treatment anymore. I understand that I may lose my right to treatment in this office if I break any part of this agreement.

Provider communication consent: I authorize my provider to talk with my other providers, pharmacists, attorneys, when appropriate for my care. I give them permission to discuss my opioid use as it pertains to my care. I know my provider or MD Pain staff will review the CO-PDMP and I will sign a release form to let the doctor speak to all other doctors or providers that I see.

I will use only one pharmacy to get all on my medicines and I will notify the office of MD Pain in writing if I wish to change pharmacies.

## Right to Discontinue Treatment or Medication

I understand that I may discontinue using my medication at any time and I agree to notify physician and/or his staff immediately upon discontinuing the use of my medication. I understand that I may be provided supervision if needed by my physician and/or his staff if I choose to discontinue my medication. In this situation, alternative care by other pain or addiction providers will be suggested and you would then be released of this agreement.

I know that these opioid and controlled medications will be stopped by the MD Pain providers if any of the following occurs:

- I trade, sell, give away, misuse, or abuse these medications.
- MD Pain finds that I have broken any part of this agreement.
- I do not present immediately for a blood, urine or saliva test, or pill count, if requested by MD Pain. I will authorize MD pain staff to count my pills if necessary.
- My blood, urine, or saliva tests show the presence of controlled or non-controlled medications that have not been previously reported to MD Pain, the presence of illegal drugs or alcohol, or fail to show opioid and other controlled medications that I am being prescribed by MD Pain.
- I receive prescriptions for opioid and controlled medications from sources other than MD Pain, unless arranged and discussed previously with my MD Pain physician or provider.
- Any member of the professional staff at MD Pain feels that it is in my best interest, from a safety or accountability standpoint, that opioid and controlled medication treatment be discontinued.
- I demonstrate ANY aggressive, belligerent, or unacceptable behavior toward any physician, provider, patient, or staff member at MD Pain.
- I consistently miss scheduled appointments at MD Pain, including office visits and procedures scheduled at MD Pain or any other facility utilized by MD Pain.
- Illicit Drug use (i.e., cocaine, methamphetamine, heroin, kratom).
- Misrepresenting or lying about medical history including not disclosing risks to addiction such as family history of abuse, prior abuse of drugs or alcohol, or prior military experience.
